

# THOMAS MITCHELL PRIMARY SCHOOL

## Notice to Parents of Students in Year 4

21<sup>st</sup> August, 2019

Dear Parents,

As part of our Digital Media Studies this semester, students will be using a range of applications such as iMovie and Stop Motion Studio to create a Stop Motion movie on the iPad.

To help students with this, we are asking students to bring in any Lego that you are comfortable sending to school in a named, zip lock bag. They will only be using their Lego with a partner. Lego characters are one of the main items that we are hoping to use.

If your child does not have Lego or you are not comfortable sending Lego to school with your child, students will have access to some materials to create their scenes and characters such as paper, blu-tac and pipe cleaners.

If you have any questions regarding this, please contact your child's teacher at your earliest convenience.

Kind regards,

Sara Berardo  
On behalf of the Year 4 team

John Hurley  
Principal
